

Citizens Are Invited to Learn about Climate Change Science and the City's Proposed Energy and Climate Change Action Plan

Climate change is widely considered to be one of the most pressing environmental issues of our generation, and for many generations to come. The City of Alexandria's Environmental Policy Commission (EPC) and Office of Environmental Quality, T&ES, invite members of the public to attend two upcoming meetings about climate change. Take part in the City's Eco-City Alexandria initiative, learn more about **the science of climate change and its impacts on the City**, and give feedback on the **City's draft Energy and Climate Change Action Plan**.

Tuesday, March 15th, 7:30 pm-9:30 pm – Alexandria City Hall, Room 2000

Climate Change Science: The Basics, and Latest Research Findings

Speakers: Marcus Sarofim, PhD, U.S. Environmental Protection Agency
Larry Schweiger, CEO, National Wildlife Federation

Saturday, March 26th, 9:30 am-12:30 pm – Polk Elementary School, Multi-purpose Room, 5000 Polk Avenue, Alexandria, VA 22304

EPC Open House: Alexandria's Draft Energy and Climate Change Action Plan

Light refreshments will be provided. After the meeting, there will be a tour of the Polk School's "state of the art" green building features and renewable energy system

Please RSVP to Khoa Tran by e-mail khoadinh.tran@alexandriava.gov or by phone (703)-746-4076. For more information on Eco-City Alexandria, visit <http://www.alexandriava.gov/eco-city>
