David
Bobby

Summary

No public comment.

EPC elections will take place during the next meeting, June 21. The following seats are available: Chair, Vice-Chair, Earth Day Chair, and Secretary. Prior to June 21, an email will be sent to EPC members from the Secretary soliciting feedback on nominations.

Currently, there are 2 vacancies on the EPC – Citizen Member and Environmental Science Member. The group discussed qualities of ideal candidates including an energetic and active member who could add diversity to the EPC.

Peter took the lead in discussing the volunteer corps for Alexandria idea. In summary, there are many opportunities for volunteers who are interested in environmental sustainability of the City to be doing; however, there is currently no forum to organize these citizens. Peter will organize a small group of EPC members to continue discussing this topic. Other ideas that came up included contacting the Alexandria volunteer Bureau, continuing to work with Volunteer Alexandria, and forming and branding non-profit organization geared towards environmental volunteers.

The Business and Outreach/Education subgroups met individually to discuss current projects.
