Step 1

Stand facing one of the frame's Secure Bag Locks (the loops). Place one foot on the bottom rung to stabilize the frame.

Insert empty bag inside of the frame. Using two hands, pull approximately 6" of bag through the loop as shown. For best chance of visibility, be sure the printed side is completely facing one of the open ends of the frame.

Step 2

Still using two hands, pull the bag 6" over the loop and toward the center, making sure to wrap it around the corners.

Step 3

Let go of the end of the bag and grasp the bag as shown. Pull down and in until it tightens around the corners. The bag will tighten around the Secure-Lock so it cannot slip off.

Repeat On Other Side

Step 4

Press down on frame to extend to full opening width. This will make the lid fit snugly.

Removal

TO REMOVE BAG: Raise bag slightly, unwrap the bag from the Secure-Lock loops and slide it through the opening of the frame.

No heavy lifting required!
